TURKISH AIRLINES

BOEING 737 MAX 9

Turkish Airlines Boeing 737 MAX 9

078

Turkish Airlines (Turkish: Türk Hava Yolları) is the national flag carrier airline of Turkey. As of August 2019, it operates scheduled services to 315 destinations in Europe, Asia, Africa, and the Americas, making it the largest mainline carrier in the world by number of passenger destinations. The airline serves more destinations non-stop from a single airport than any other airline in the world and flies to 126 countries, more than any other airline. With an operational fleet of 24 cargo aircraft, the airline's cargo division serves 82 destinations.

The airline's corporate headquarters are at the Turkish Airlines General Management Building on the grounds of Istanbul Atatürk Airport in Yeşilköy, Bakırköy, Istanbul. Istanbul Airport in Arnavutköy is the airline's main base, and there are secondary hubs at Ankara Esenboğa Airport and İzmir Adnan Menderes Airport. Turkish Airlines has been a member of the Star Alliance network since 1 April 2008

The Boeing 737 MAX is the fourth generation of the Boeing 737, a narrow-body airliner manufactured by Boeing Commercial Airplanes (BCA), a division of American company Boeing. It succeeds the Boeing 737 Next Generation (NG) and competes with the Airbus A320neo family. The 737 MAX is based on earlier 737 designs, with more efficient CFM International LEAP-1B engines, aerodynamic changes, including its distinctive split-tip winglets, and airframe modifications. The new series was announced on August 30, 2011. It took its maiden flight on January 29, 2016 and was certified by the U.S. Federal Aviation Administration (FAA) in March 2017. The first delivery was a MAX 8 in May 2017 to Malindo Air, with whom it commenced service on May 22, 2017.

Scale: 1:100
Length: (421mm)
Width: (358mm)
Parts: 300 (12 pages)

Attach the parts in order.
A1 - I6
You can choose to make either a ground style (With Wheels)
or an in-flight style (without wheels) aircraft.
