## Among Us Pink Crewmate

Among Us is an online multiplayer social deduction game developed and published by American game studio InnerSloth and released on June 15, 2018. The game takes place in a space-themed setting where players each take on one of two roles, most being Crewmates, and a predetermined number being Impostors.

The goal of the Crewmates is to identify the Impostors, eliminate them, and complete tasks around the map; the Impostors' goal is to covertly sabotage and kill the Crewmates before they complete all their tasks. Through a plurality vote, players believed to be Impostors may be removed from the game. If all Impostors are eliminated or all tasks are completed, the Crewmates win; if there is an equal number of Impostors and Crewmates, or if a critical sabotage goes unresolved, the Impostors win.
